The Friendly Store

When you enter our store, you are coming into a friendly store—not the old fashioned kind of a "gossip center" that the old village store was with cracker barrels and big heating stove, but a modern mercantile establishment that tries to understand your wants and to serve you so that your needs are fully taken care of. We know the majority of our customers by their first name and feel that they are personal friends of ours. True, we want their business, but we want their faith, confidence and friendship first. Our increasing business and the constant number of new faces that keep coming in convince us that our policy is right.

Our MAIL ORDER FRIENDS receive the same friendly courteous treatment as though they came in personally. We try to put ourselves in the mail order customer's place and govern ourselves accordingly. 673 orders from new customers and a big increase in the total orders from old customers

makes us feel that we are following the right road to success. **MAKE OUR FRIENDLY STORE YOUR HEADQUARTERS.**

A NEW CHANGE IN POLICY

If you secure but one catalog and desire a copy of the other, we shall gladly mail you one free upon receiving a request for same.

Very truly yours,

Enjoy the Pleasure of Living Beauty

Today every home can enjoy the advantages of living beauty—velvety lawns, colorful flowers, full foliaged shrubs and trees.

You and your family can enjoy this modern home beauty if you will but realize that plants, like other living things, need food, and they need many different food elements—fourteen in all. Almost no soil can supply its share of these elements in the right proportion. To assure gardening success you must add a complete, properly balanced plant food to the soil.

For the finest garden you ever had, feed your lawn, flowers, shrubs, trees and vegetables with Vigoro, "the square meal for plants." It contains, in the right balance, all the food elements plants must get from the soil. No other plant food elements are needed when Vigoro is used, for it produces sturdy plants with strong roots as well as healthy, luxuriant growth above the soil.

Order enough Vigoro for everything you grow. 4 pounds will feed 100 square feet of lawn or garden area.
